

Round Table Talk [SOLUTION]

The title and server's name (Vanna) hints the Wheel of Fortune category "Before and After". As indicated by the flavour text, we start with "cinnamon roll" and go around the table by moving to the right ("I'll be *right* back") as if someone were seated at the table and talking to their right-hand neighbour. At each seat, we pick the item from the menu that makes a logical before-and-after with the phrase previously said. Some of the before-and-afters are trickier than others!

cinnamon roll
 (roll) up your sleeve
 (sleeve)less sweater
 (sweater) weather
 (weather) report
 (report) a problem
 (problem)attic [problematic] cleanout
 (out) of my league
 (league) champion
 (champion)ship match
 (match)making
 (king) consort
 (sort) key
 (key) to the city
 (city) council

Finally, we index into the "spoken" terms in order using the numbers in the caption:

6 cinnamon roll
 1 up your sleeve
 3 less sweater
 5 weather
 1 report
 4 a problem
 11 attic cleanout
 3 of my league
 1 champion
 2 ship match
 4 making
 1 consort
 1 key
 5 to the city
 4 council

The result is MUSHROOM CHICKEN, an entree at [Panda Express](#).
